

# forza

grupo elite

Our commitment to Triathlon is evident by going beyond what other companies do. We not only design the most original garments in the sport, we even design the fabrics they are made of.

Ribbed™ Lycra Power® is one of them, it is exceptionally resilient and supportive, and it is the fabric used in our high-end, elite line, the Forza Grupo.

From De Soto you get exceptional products, made of exceptional fabrics, all designed and developed in San Diego, available only at the best dealers in the country, and backed by the most exceptional customer service in the world.
